RESOLUTION TITLE **Clean Transportation**

BE IT RESOLVED THAT: The DFL supports development of sustainable public transportation, including mass transit, commuter rail, light rail, and buses, charging stations for electric vehicles, as well as viable options for pedestrians, bicycles, and other non-motorized transportation options.

You may add a brief explanation or your two or three strongest supportive points here.

- The transportation sector has taken over as the largest contributor to greenhouse gas emissions. We need to reduce vehicle miles traveled by providing alternative options including safe routes for biking and walking, and electrifying the remaining miles.
- Governor Walz should sign the Multi-State Medium-and Heavy-Duty Zero Emission Vehicle Memorandum of Understanding.
- Expanding transportation options leads to greater equity for all Minnesotans.
- Infrastructure to support and allow the easy use of electric vehicles and electrified public transportation, including expanded passenger rail, should be deployed equitably across the state so all have access.
- Expanding Minnesota's transportation infrastructure will create jobs.
- Improved and expanded transportation options will reduce the cost of living for many individuals and boost the quality of life in Minnesota communities.
