Individuals at their precinct caucuses can submit resolutions. When a majority of the caucus adopts a resolution it advanc-		
es to the Organizing Unit convention for consideration to send to the State Platform, Issues, and Legislative Affairs Com-		

## **RESOLUTION TITLE (limited to 5 words): Fossil fuel divestment BE IT RESOLVED THAT:**

Support the divestment from fossil fuel holdings by the Minnesota State Board of Investment to protect the pensions of Minnesota civil servants and educators from financial risk and to help move our economy to clean energy sources.

may be selected for consideration at the State Convention (for inclusion in the DFL Ongoing Platform or Action Agenda).

mittee. Resolutions having support from at least five Organizing Units drawn from at least two Congressional Districts

- Besides the obvious moral argument for divestment, the financial risk of continued investment in fossil fuel funds makes this a poor investment. These assets will become stranded assets and of little value as we move away from fossil fuels to a clean energy economy.
- Litigation risks increase as the cost of climate related disasters soar. Local governments are holding energy companies responsible for infrastructure and property damage.
- Governments are also using cap and trade or carbon taxes to reduce greenhouse gas emission. This
  makes high carbon energy sources more expensive and less profitable, and sends a clear market signal to
  switch to renewable energy sources. Solar and wind are often less expensive than any other energy
  option.
- Numerous institutions made divestment announcements recently. The leaders of these institutions
  declared that they are taking these divestment actions as prudent fund managers. Recent announcements
  of divestment were made by: New York State Common Retirement Fund, Macalester College, the
  University of Minnesota, Harvard University, Boston University, the MacArthur Foundation, the Ford
  Foundation, some California State Universities, and Dartmouth College.
