Individuals at their precinct caucuses can submit resolutions. When a majority of the caucus adopts a resolution it advances to the Organizing Unit convention for consideration to send to the State Platform, Issues, and Legislative Affairs Committee. Resolutions having support from at least five Organizing Units drawn from at least two Congressional Districts may be selected for consideration at the State Convention (for inclusion in the DFL Ongoing Platform or Action Agenda).

**RESOLUTION TITLE (limited to 5 words):** **Precautionary principle**

**BE IT RESOLVED THAT:**

Require newly developed substances to be proven safe before widespread manufacture and use and support the banning of toxic and carcinogenic substances, such as PFAS, in consumer goods.

- Our current system allows corporations to introduce chemicals without the burden of proving that they are safe – it is on regulators that have to prove that the chemicals are harmful.
- Minnesota and the United States should introduce the precautionary principle in regulating new chemicals – ensuring that harm is prevented beforehand rather than addressed afterward. It would require corporations to prove that their new substances are safe prior to approval for widespread use.
- Research is needed to better understand sources of trace contaminants like PFAS and pharmaceuticals so they can be effectively controlled before they enter surface water and groundwater.
